

# The OpenESB summit May 2011

The OpenESB community organizes its 2<sup>nd</sup> summit in North America.

## Sponsors invitation

Sponsor the summit in California May 9-10, 2011

Have your say during the two day summit, exploring and exchanging ideas on the future direction of OpenESB. Come together with fellow project owners, architects, designers, developers and Technologists to pave the way forward and establish the Community's guiding principles and the OpenESB product roadmap.

The two day summit includes following. Click [here](#) to Register.

### Agenda:

OpenESB community state  
 OpenESB infrastructure  
 The new OpenESB V2.3  
 OpenESB Roadmap  
 Various Workshops

### New Objectives:

Promote OpenESB  
 Port to other app server  
 Missing features  
 Fuji roadmap  
 Compelling requirements from Customers  
 Competition with other Open source ESBs

### Be a sponsor

- You deliver consulting, training or development on OpenESB; you want to make your services known to the community and the end-users.
- You are an OpenESB user, you want to influence the future of the project and give durability to the community.
- You are interested to support one of the best ESB open source projects.
